

Make your own Binoculars!

This is a fun craft that you can do to help become more observant of your surroundings. For this activity, you will need:

- 2 toilet paper rolls
- Tape
- Hole puncher (optional)

1. Gather your supplies!

2. Put a hole punch near the top of each of toilet paper rolls.

3. Tape together the two toilet paper rolls so that the hole punches are on opposite sides

- Yarn/String (optional)
- Scissors (optional)

4. With the piece of string, tie one end on to each toilet paper roll by knotting it through the holes.

If you do not have a hole puncher at home, tape the string on to the side of your binoculars!

5. Now you can use your binoculars to look around your house and out the window!
